

INNOVATIONS FOR A CIRCULAR BHARAT

An opportunity to accelerate circularity solutions through Project Circular Bharat – a multi-stakeholder program enabling startups to deploy, validate, and scale solutions across India

What makes Project Circular Bharat different?

- **India's First Industry-Government Partnership** to accelerate innovative circular solutions.
- **Mentorship** to build viable, scalable business models
- **Multi-city ecosystem** that unlocks real market access
- **Pilots/Micro-pilots** with government and corporates to test, refine works in the Indian context

VISION

To accelerate next-generation Indian startups and circularity innovations.

Program will focus on the following sectors:

- 1** Plastic Circularity & Sustainable Packaging
- 2** Advanced Recycling & Post-Consumer Waste Processing
- 3** Reuse, Refill & Alternative Delivery Systems
- 4** Circular Supply Chains & Resource Efficiency
- 5** Textile & Next-Generation Materials
- 6** E-Waste & Electronics Circularity

Eligibility Criteria :

- **Sector Focus:**
Circularity, sustainability, resource efficiency
- **Startup Stage:**
Revenue Stage, Pilot-ready, TRL 5+
- **Application Ready:**
Deployment-ready solutions
- **GTM Needs Seeking:**
GTM support, pilots, or partnerships
- **Ecosystem Alignment:**
Commitment to collaborate and co-create with industry and public stakeholders

What Startups Get:

- Curated GTM & Pilot Opportunities
- Cohort Peer Learning
- Circular Ecosystem Visibility
- Corporate & Ecosystem Partnerships
- Institutional Credibility
- Field Deployment Exposure
- Structured Mentorship & Reviews
- Grant Support

We invite you to join us in enabling a circular economy in India

Together, we can drive India's growth journey forward by unlocking innovation, drive systemic change, and transform waste into an opportunity.
